DRYFIX HIRE SERVICES

Specialist hire of water damage and flood restoration equipment

Dryfix have expanded our range of services yet again with Dryfix Hire.

Dryfix Hire based in York, North Yorkshire specialise in the hire and rental of damp diagnostic and water restoration equipment to assist in disasters such as; water damage repairs from burst pipes or leaking washing machines to fire and flood damage, extensive mould and indoor air quality control.

Our equipment is state of the art and produced by world leaders in the restoration industry which is fully insured and maintained to high standards. We have an extensive range of equipment for hire to assist in both the diagnosis and repair in water damage scenarios such as; moisture meters and thermal imaging cameras, refrigerant dehumidifiers, desiccant dehumidifiers, air movers, HEPA filtered air scrubbers, dust and fume extractors and submersible pumps. If there are any additional items of equipment that you require and cannot see on our website please contact us and we will endeavor to source these for you.

We react quickly delivering throughout Yorkshire and full training on the use of our equipment is provided from one of our own trained technicians.

We also provide a drying and monitoring service allowing us the "experts" to take control of your drying project. Our service includes the hire and transport of equipment, setting up of the equipment, full damp diagnosis investigation including written reports for your insurers containing pictures and detailed specifications along with category damage ratings. Our monitoring services are provided from start to completion when your property is returned to a pre loss condition. Upon completion of our drying services an insured drying certificate is also provided. See flood restoration, water damage and structural drying pages on our website for further details.

All of our technicians are National Flood School trained and IICRC qualified in water restoration, mould remediation and structural drying.

Upon completion of our drying services we are also able to provide peace of mind that your project has been undertaken professionally by experienced and trained technicians issuing you with an insured drying certificate and guarantee for our work. Dryfix Preservation are the **'1st company in the UK'** able to offer our clients with additional insurance protection for the work undertaken by our company.
